

LISTING OF THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application. Claims 2 – 34 are in the case.

2. (Original) A method for weight control in a mammal, comprising administration of a composition comprising: Caffeine, Adrenergic Amine, Forskolin, Guggulsterone, Alpha-2 Receptor Antagonist, and Vinca Alkaloid.

3. (Currently Amended) A method as in claim ~~1~~ 2 further comprising Black Pepper Extract.

4. (Currently Amended) A method as in claim ~~1~~ 2 wherein said Adrenergic Amine is selected from the group consisting of Synephrine, Hordenine, Octopamine, Tyramine And N-Methyltyramine.

5. (Currently Amended) A method as in claim ~~1~~ 2 wherein said Alpha-2 Receptor Antagonist is Yohimbine.

6. (Currently Amended) A method as in claim ~~1~~ 2 wherein said Vinca Alkaloid is Vinpocetine.

7. (Currently Amended) A method as in claim ~~1~~ 2 wherein said administration comprises a therapeutically effective dosage.

8. (Original) A composition comprising Caffeine, Adrenergic Amine, Forskolin, Guggulsterone, Alpha-2 Receptor Antagonist, and Vinca Alkaloid.

9. (Original) A composition as in claim 7 further comprising Black Pepper Extract.

10. (Original) A composition as in claim 7 wherein said Adrenergic Amine is selected from the group consisting of Synephrine, Hordenine, Octopamine, Tyramine And N-Methyltyramine.

11. (Original) A composition as in claim 7 wherein said Alpha-2 Receptor Antagonist is Yohimbine.

12. (Original) A composition as in claim 7 wherein said Vinca Alkaloid is Vinpocetine.

13. (Original) A composition as in claim 7 wherein said administration comprises a therapeutically effective dosage.

14. (Original) The composition of claim 7 formulated for enteral administration comprising said unit dosage form admixed with flavors and sweeteners.

15. (Original) The composition of claim 7 formulated for enteral administration comprising said unit dosage form contained in blended powder or one or more capsules.

16. (Original) A composition according to claim 7 wherein said composition is in the form of a powder, tablet, capsule, pill, liquid, food additive, candy, confection or nutrition bar.

17. (Original) A composition according to claim 15 wherein said powder is admixed with a liquid.

18. (Original) The composition of claim 7 in a sustained release form.

19. (Original) An composition for enteral or parenteral administration comprising: 100 mg to about 500 mg by weight of Caffeine, 5 to 80 mg by weight of Adrenergic Amine, 5 mg to 100 mg by weight of Forskolin, 5 mg to 80 mg by weight of Guggulsterone, 5 mg to 50 mg by weight of Alpha-2 Receptor Antagonist, and 5 to 50 mg by weight of Vinca Alkaloid.

20. (Currently Amended) A method according to claim 1 2, wherein administering is performed on a daily basis.

21. (Original) A method according to claim 19, wherein said daily

administration comprises at least two partial daily administrations of said composition.

22. (Currently Amended) A method according to claim 1 2, wherein administering is performed following an exercise period.

23. (Currently Amended) A method according to claim 1 2, wherein the composition comprises an amount of from about 125 mg to about 1310 g per day.

24. (Currently Amended) A method according to claim 1 2, wherein the composition comprises an amount of about 270 mg to about 810 mg per day.

25. (Currently Amended) A method as in claim 1 2 wherein said administration comprises a single daily administration.

26. (Currently Amended) A method as in claim 1 2 wherein said administration comprises partial daily administration, said partial daily administrations comprising at least one nutrient selected from the group comprising Caffeine, Adrenergic Amine, Forskolin, Guggulsterone, Alpha-2 Receptor Antagonist, and Vinca Alkaloid.

27. (Original) An composition consisting essentially of: 74.10% Caffeine, 7.41% Synephrine, 7.41% Forskolin, 7.41% Guggulsterones, 1.84% Yohimbine, and 1.84% Vinpocetine.

28. (Original) A composition according to claim 7 wherein said compound weights are adjusted according to predetermined factors.

29. (Original) A composition according to claim 27 wherein said predetermined factors include an individual's weight.

30. (Original) A composition according to claim 27 wherein said predetermined factors include an individual's exercise intensity.

31. (Original) A composition according to claim 27 wherein said predetermined factors include an individual's lean body mass.

32. (Original) A composition according to claim 27 wherein said predetermined factors include an individual's proportion of body fat to lean body mass.

33. (Original) A composition according to claim 27 wherein said predetermined factors include an individual's desire to increase energy.

34. (Original) A composition according to claim 27 wherein said predetermined factors include an individual's desire to increase stamina.
